INDIANA *for* COMMISSION  
HIGHER EDUCATION

## **Statewide College Enrollment Shows Slight Improvement**

Overall, Indiana's public colleges and universities continued an upward trend of enrollment growth with 1,646 more students taking classes than did fall semester 2005. This fall, 268,459 students are enrolled at Indiana's public campuses, surpassing last year's record enrollment of 266,813 students.

Ivy Tech Community College of Indiana experienced the most significant enrollment gains with a statewide increase of 2.9% over the fall 2005 semester. Three of Ivy Tech's campuses had double-digit enrollment increases, with the highest increase of 21.7% at its Richmond campus.

The enrollment growth at Ivy Tech is aligned to structural changes in Indiana's higher education system that include expanding opportunities for students at Indiana's community colleges. "With the launch of the community college initiative in 1999, the state set a goal of adding 30,000 new students to the community college system by 2009," according to Stan Jones, Indiana's Commissioner for Higher Education. "With the fall 2006 enrollment, Indiana already has met 98.7% of that goal."

Despite the statewide enrollment growth, several four-year public universities reported an enrollment decline compared to last fall.

"In part, this decline is to be expected as Indiana's four-year campuses align admission standards with Indiana's Core 40 expectations," stated Jones. "Recent efforts have focused on ensuring that students are appropriately placed in a college best suited to their level of high school preparation."

Over the last six years, referral programs between Indiana's four-year colleges and Ivy Tech Community College of Indiana have been developed and expanded for students needing additional preparation prior to seeking a four-year degree. Students are provided with a tailored list of requirements that must be completed at the local community college. Upon successful completion of these requirements, students receive automatic admission into the four-year campus.

*About the Commission for Higher Education -*

*The Commission for Higher Education is Indiana's coordinating agency for higher education. Its statutory purposes are to plan and coordinate Indiana's state-supported system of postsecondary education, taking into account the plans and interests of independent colleges and universities; to define the educational missions of public colleges and universities; to review both operating budget and capital budget appropriation requests from public institutions; to approve or disapprove for public institutions the establishment of any new branches, campuses, extension centers, colleges or schools; to approve or disapprove for public institutions the offering of any additional associate, baccalaureate or graduate degree or certificate program of two semesters or more in duration; to review all programs of public institutions and make recommendations to the governing board of the institution, the Governor, and the General Assembly concerning the funding and the disposition of these programs; and, to review the budget requests of the State Student Assistance Commission. For additional information go to [www.che.state.in.us](http://www.che.state.in.us).*
